Amazon Sales Dashboard - Insight Report

1. Executive Summary

The dashboard analysis of Amazon sales data indicates strong global revenue performance with total sales of $12.64M generated from 178K units sold. The business achieved $1.47M in total profit while incurring $1.35M in shipping costs. Technology products contribute the largest share of revenue, while the APAC region leads global market sales.

2. Key Performance Indicators

Total Sales: $12.64M

Total Units Sold: 178K

Total Profit: $1.47M

Total Shipping Cost: $1.35M

3. Category-wise Sales Insights

Technology is the top-performing category, contributing approximately 37.5% of total sales ($4.74M). Furniture follows with $4.11M (32.5%), while Office Supplies contribute $3.79M (approximately 30%). This indicates strong demand for technology products in the market.

4. Market-wise Sales Insights

The APAC region leads global sales with $3.59M (28.36%). Europe (EU) follows with $2.94M (23.24%), while the US contributes $2.3M (18.17%). LATAM and EMEA collectively contribute over 23% of sales, highlighting growing demand in emerging markets.

5. City-level Sales Performance

New York City records the highest sales among all cities, followed by Los Angeles and Manila. This indicates strong demand in major metropolitan areas where purchasing power and product availability are higher.

6. Shipping Mode Analysis

Standard Class shipping generates the highest sales volume compared to other shipping methods. Second Class and First Class contribute moderate sales, while Same Day shipping

has the lowest share, indicating that customers generally prefer cost-effective delivery options over faster premium delivery.

7. Country-level Sales Insights

The United States leads global country-level sales. Australia and France also demonstrate strong sales performance, followed by China, Germany, Mexico, and India. These markets represent significant opportunities for future expansion.

8. Key Business Insights

• Technology category is the primary revenue driver.

• APAC region contributes the largest share of global sales.

• New York City is the top-performing city by revenue.

• Standard shipping mode dominates customer preference.

• The United States leads country-level sales performance.

9. Strategic Recommendations

• Increase focus on high-performing technology products.

• Expand marketing and distribution in APAC and EU regions.

• Optimize shipping costs to improve profit margins.

• Strengthen presence in high-revenue cities and countries.

• Introduce targeted promotions in emerging markets.
